g) Note on COVID -19:

COVID-19 pandemic has and had an extraordinary impact on macroeconomic conditions in India and around the world during the past three years. The impact of COVID-19, including changes in customer behavior and pandemic fears, as well as restrictions on business and Individual activities, had led to volatility in global and Indian financial markets and a decrease in global and local economic activities. The revival of economic activity has since improved supported by relaxation of restrictions due to administration of the COVID vaccines to a large population in the country. The extent to which any new wave of COVID-19 pandemic will impact the Bank results will depend on ongoing as well as future developments, including, among other things, any new information concerning the severity of the COVID-19 pandemic, and any action to contain its spread or mitigate its impact whether government-mandated or elected by us.
